

# ***THE STORY GUIDE***

[www.imaginationzoo.com](http://www.imaginationzoo.com)

The story guide is designed to engage, stimulate and enhance your child's imagination, creativity and verbal skills. Additionally, the interaction between parent and child reinforces fundamental bonding and establishes a cooperative openness and understanding providing for superior parent and child relationships.

The following questions are designed as a guide for the story leader. There are no correct or incorrect answers, and after question number 1, there is no formal order of questions. For freshness, randomly select questions from the list. With multiple children, simply alternate the child to whom the question is asked.

Ask your child a question and encourage them to expand upon their response in greater detail. As an example, if you ask, "Who are its friends?" And the child responds "monkeys." A follow-up question could be, "What games does it play with the monkeys?"

Remember, the goal is to engage your child's imagination. The longer the story sessions, the more your child will benefit.

## **Suggested Story guide questions;**

### **1. What is its name?**

- **Where does it live?**
- **Who are its friends?**
- **What does it eat?**
